**Vehicle Accessory Specialists (VAS)** is an Australian owned family business that was established in 1998. VAS has an experienced dealer network across Australia servicing large corporations with major fleets as well as countless small to medium businesses.

**VAS Shelving** holds an ADR 42/04 General Safety Rating. What does this mean?

The VAS Shelving range has undergone crash testing and has met with all required Australian Design Rule specifications, making VAS Shelving a strong, durable and safe storage choice.

**VAS Shelving** has been independently tested and certified to comply with Australia's Workplace Health and Safety standards.

**VAS Shelving** has been engineered based on three key elements: **safety durability and quality.**

# Trade Kits

**VAS Trade Kits** - A great way to organise your tools!

VAS Trade Kits are designed to maximise space in your vehicle, assist with maintaining stock levels, provide equipment protection all while adding to your professional image.

# Cargo Barriers

**Vehicle Accessory Specialists (VAS)** choose to stock Autosafe and Milford cargo barriers as they are built to comply with both the Australian cargo barrier standard - AS4034 and the relevant Australian Design Regulations. These high standards provide optimum protection under the most demanding driving conditions.

In the event of an accident or in the instance of sudden braking unsecured items like groceries, work gear, or sporting equipment can all be lethal.

Installing a vehicle specific cargo barrier is a must; there is no better way to secure your safety.

# Seating

**These highly adaptable** additional van seats allows you to transport either passengers or cargo with just a few quick moves. Unlike the average van seat addition,

they're available in a wide range of configurations and upholstery types.

## Classic

*Budget friendly, standard foldaway bench seating.*

## Premier

*Enhance your vehicle with genuine look style seating.*

## Safety Excel

*Superior comfort, safety and flexibility with integral lap sash seat belts and accessories.*

## Cabin Seating

*Increase your seating capacity with additional centre position cabin seats.*

# Roof Racks & Accessories

**Vehicle Accessory Specialists (VAS)** are one of Rhino-Rack's largest stockists. Rhino-Rack has an extensive range of commercial and recreational roof

racks and accessories. Vehicle Accessory Specialists can supply and install the full range of Rhino-Rack products.

# Front Protection Bars

**Front & Rear Protection** manufactured to exceptionally high standards for maximum strength and designed with optimum fit to suit each vehicle.

HITCH RECEIVER TOWBAR

# Windows & Window Guards

Stylish, sleek and simple, bonded windows are the industry standard for all modern vans.

## Bonded Fixed Windows

## Bonded Sliding Windows

## Window Guards

**Window Guards** serve two purposes. The first is to limit forced break-in into a vehicle, the second to protect the window from breakage due to moving cargo.

# Electrical

VAS offers a wide range of electrical services for the interior and exterior of your vehicle. Rotating amber beacons, work lights, winches, cameras and safety squawkers all assist with driver, passenger and pedestrian safety. LED interior lights, 12v hand wash stations, inverters and other internal power products assist by offering their own safety, comfort and abilities; all can be installed by our licenced Auto Electrician.

# Safety

**Workplace Health & Safety (WHS)** is a large part of business today. We have an extensive range of equipment to minimise work place injury.

SAFETY STEP & HAND RAIL

FIRE EXTINGUISHER

GRAB HANDLE

ROOF VENTS

FIRST AID KITS

SAFETY GRIP TAPE
